

As a flight attendant I highly oppose the introduction of cell phone use on the aircraft. There are a few reasons why I feel this way. There is no hard evidence that cell phone use doesn't interfere with navigational instruments, cell phone use would enable terrorist to coordinate a plan of action against us more effectively, the NPRM would leave it up to flight attendants to police the use of cell phones onbaord the aircraft compromising our ablility to maintain a safe environment and to conduct emergency evacuations, and it would make an already tense cabin environment even more stressful. Thank you for taking the time to hear my concern about keeping our skies safe. Thank you Rhondalee Harrison
(Flight Attendant at Aloha Airlines)
